Tamarack Management & Consulting Company Overview

Tamarack Management & Consulting is a company designed to address the needs of small to mid-size organizations.

Our primary goal is to assist companies in capitalizing on their Return on Investment for every technology dollar spent, achievable by implementing a unique team approach to a company's technology challenges.

Tamarack's Management & Consulting Team has an average of over 20 years industry experience in each respective discipline. Our experienced team of professionals have been

affiliated with some of the largest corporations in the country allowing you access to a wide array of expertise and

knowledge. Companies of all sizes small, medium and large all face the same business challenges. In today's emerging global economy it has become increasingly difficult to be competitive and keep pace with changing and innovative technology, coupled with the fact that it's extremely challenging to hire good Information Technology Professionals.

Tamarack Management & Consulting can assist you, and partner with your company to offer a total team approach by providing you direct access to our team of experienced and seasoned Information Technology Managers and Practice Consultants.
